

## INDIANS AGAIN LEADING IN AMERICAN LEAGUE

## YANKEES WIN FIRST GAME OF SERIES TO SLUGGING WHITESOX

[Republican A. P. Leased Wire]

CHICAGO, Sept. 16.—Chicago forced New York out of the first place in the American league pennant race today by taking the first game of the crucial series, 8 to 3, while Cleveland shut out Washington. Chicago showed a reversal of form after a day's lay off, and supported Kerr with heavy hitting. Sensational fielding by Jackson, Felsch and Strunk was another factor in subduing the Yankees.

"Babe" Ruth failed to smash out his fiftieth homer, although he faced Kerr five times. He cracked out a brace of infield singles and in the sixth inning with two on base, Ruth was fanned for the third out.

Chicago fell on Quinn in the second inning, scoring runs on five hits, which included doubles by Strunk and Jackson and John Collins' triple. Mogridge checked the White Sox when he replaced Quinn but was himself relieved by a pinch hitter.

A crowd estimated at 30,000 witnessed the game. Score:

Innings pitched—Quinn 1-2-3; Mogridge 3-1-3; R. Collins 2; McGraw 1. Struck out—By Kerr 5; Mogridge 1. Passed balls—Hannah 2.

## SENATORS OUT-HIT INDIANS BUT LOSE EXCITING CONTEST

CLEVELAND, Sept. 16.—Cleveland went back into first place when it won an exciting pitchers' battle from Washington. The first man to face Zachary in the first inning singled and Cleveland did not get another hit until there were two out in the eighth. Sewell then scratched a single, took third on O'Neill's double to right and scored on a wild pitch. Score:

## GLENDALE GRAMMAR SCHOOL NOTES

The Glendale grammar school opened Monday with a very large enrollment.

At the close of the first week of last year our total enrollment was 465. On the second day of school this year our total enrollment was 523. This figure shows that at the very beginning of the school year of 1920 we had twenty-two pupils more in attendance than our best month's attendance of last year of the 1919. Just where we are going to put all of the youngsters is our worry at the present time.

However, our sub-primary, which is the session in the club house and Sunday school rooms, is not so large as we had hoped it would be. We attribute this to a misunderstanding of the patrons. The following explanation will perhaps clarify that to some extent. The work

to be taken up in the sub-primary classes will consist of the regular kindergarten work during the first half of the year; then, the work of the second half of the year will be the sub-first grade, or the primer work. You will readily understand then that the pupil who spends the year in the sub-primary class will make the strongest pupil in his further school work in the grade schools.

Now, as to what children may be admitted. For the present, we are taking only the pupils who are five years old. Later on, if we find we can accommodate them, we will lower the age, perhaps to four and one-half years of age.

There will be two sessions daily, the forenoon session, running from nine to eleven-thirty, made up principally of the little tots from the country and the afternoon session from one to three-thirty, made up of those children from the country whose older brothers and sisters are in the grammar school and who cannot go home until the older children are dismissed, and also the little folks who live in town.

We are somewhat disappointed in the enrollment in this department because it was instituted at quite an additional expense to the district and was instituted this year only after considerable pressure had been brought to bear upon the board of trustees and the superintendent. We wish the patrons of the district to distinctly understand that the sub-primary is a portion of the Glendale grammar schools and not a private affair and also that any parents who have children five years of age are earnestly urged to send those children to the sub-primary. Any further questions concerning this department will be gladly answered.

A great many of the schools over the country are doing away entirely with the departmental work in the seventh and eighth grades. It is our plan here in Glendale to endeavor by actual "try-out" before making the decision as to which pupil gets the most out of his seventh and eighth grade work—the pupil who has several teachers in the department, or the pupil who has one regular teacher.

When we get this departmental work definitely classified in the very near future, there will be three divisions of the seventh grade. The divisions will be made very largely upon an alphabetical basis; that is, the pupil whose last name begins with one of the first letters of the alphabet will be placed in Division A. The pupil whose last name begins with a letter near the middle of the alphabet will be placed in Division B. Division A and B will be under the several teachers in the departmental plan. The pupils whose names begin with the last letters of the alphabet will be placed in Division C and will be under the one regular teacher, or Miss Arnold. The work of all three divisions will be full seventh grade work and the division of pupils will not be made because of any "sins" of former teachers.

The district erected, during the summer, what is known as the teachers' dining hall and cafeteria room. In the teachers' dining hall we have employed one of the best cooks in the community and a very efficient helper whose wages are paid by the teachers eating in the dining hall. At the present time there are twenty-two teachers for breakfast,

thirty-three for luncheon and twenty-six for dinner.

It is our endeavor to board our teachers with good wholesome home cooking at a cost of not more than \$30 per school month. The teachers themselves have nothing but a commendable report to make upon the dining hall and its system. This we feel will add a great deal to the life of the teacher, because it brings them together where the ordinary man is at his best, so far as disposition is concerned.

At the present time the three meals are served in the teachers' dining hall but as soon as our complete equipment for the cafeteria arrives, the teachers' dining hall will be open for the morning and evening meals only and the teachers will take their luncheon with the pupils of their own room in the cafeteria itself. The cafeteria room is large enough to accommodate some 250 pupils at once. It is an institution of which we are justly proud and which we will be glad to show to anyone at any time.

We wish to express our sincere appreciation of the way in which the good people of Glendale have opened their homes to welcome the teachers, as practically every teacher reports to the office that she has a very desirable, home-like and comfortable room with an exceptionally nice family. We would urge at this time that the people of Glendale, even more than ever before, fill up the empty back seats of their automobiles in their evening and Sunday afternoon drives with teachers of the Glendale schools; also that they be invited to the homes for the evening. Anything to make the teachers feel that they are welcome in Glendale and that they are a vital part of the Glendale

community. If you do not know where they are rooming and wish to get in touch with any of them for any purpose, please call the office, phone 55, and get the information desired. We feel that we have an exceptionally pleasant, if not all good looking, live crop of teachers this year. Let us all get better acquainted with a mighty fine group of teachers.

## Roads Bulletin

Main highway Springerville to Holbrook in good condition, mountain roads soft.

Holbrook to Winslow, take road north of Santa Fe. Drive carefully between St. Joseph and Winslow as there are several soft places for short stretches.

Winslow to Flagstaff, Tolchaco road through Leupp is the best. Flagstaff to Kingman good excepting stretches between Williams and Ash Fork and through Nelson canyon.

Wickenburg route to Prescott good. Black Canyon fair in spots, rough and slow in stretches.

Coast route through Parker fair. Road Ehrenburg considered best at this time.

Take new state highway by way of Mesa to Florence. Roads from Florence to Tucson good. Tucson to Nogales very soft in places due to recent heavy rains.

Main roads in Graham, Greenlee and Cochise counties in good shape for the most part. The same is true of Gila county.

Very little water in river at Sacaton, but mud to a considerable depth on north side makes it necessary for cars to be pulled through.
